During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. Farewell to Manzanar has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese American experience includes an inspiring afterword by the authors.

For fans of Hatchet and Island of the Blue Dolphins comes Theodore Taylor's classic bestseller and Lewis Carroll Shelf Award winner, The Cay. Phillip is excited when the Germans invade the small island of Curaçao. War has always been a game to him, and he's eager to glimpse it firsthand-until the freighter he and his mother are traveling to the United States on is torpedoed. When Phillip comes to, he is on a small raft in the middle of the sea. Besides Stew Cat, his only companion is an old West Indian, Timothy. Phillip remembers his mother's warning about black people: "They are different, and they live differently." But by the time the castaways arrive on a small island, Phillip's head injury has made him blind and dependent on Timothy. "Mr. Taylor has provided an exciting story...The idea that all humanity would benefit from this special form of color blindness permeates the whole book...The result is a story with a high ethical purpose but no sermon."—New York Times Book Review "A taut tightly compressed story of endurance and revelation...At once barbed and tender, tense and fragile—as Timothy would say, 'outrageous good.'"—Kirkus Reviews \* "Fully realized setting...artful, unobtrusive use of dialect...the representation of a hauntingly deep love, the poignancy of which is rarely achieved in children's literature."—School Library Journal, Starred "Starkly dramatic, believable and compelling."—Saturday Review "A tense and moving experience in reading."—Publishers Weekly "Eloquently underscores the intrinsic brotherhood of man."—Booklist "This is one of the best survival stories since Robinson Crusoe."—The Washington Star · A New York Times Best Book of the Year · A School Library Journal Best Book of the Year · A Horn Book Honor Book · An American Library Association Notable Book · A Publishers Weekly Children's Book to Remember · A Child Study Association's Pick of Children's Books of the Year · Jane

This document lists chronologically and alphabetically by name all nuclear tests and simultaneous detonations conducted by the United States from July 1945 through September 1992. Two nuclear weapons that the United States exploded over Japan ending World War II are not listed. These detonations were not "tests" in the sense that they were conducted to prove that the weapon would work as designed (as was the first test near Alamogordo, New Mexico on July 16, 1945), or to advance nuclear weapon design, or to determine weapons effects, or to verify weapon safety as were the more than one thousand tests that have taken place since June 30, 1946. The nuclear weapon (nicknamed "Little Boy") dropped August 6, 1945 from a United States Army Air Force B-29 bomber (the Enola Gay) and detonated over Hiroshima, Japan had an energy yield equivalent to that of 15,000 tons of TNT. The nuclear weapon (virtually identical to "Fat Man") exploded in a similar fashion August 9, 1945 over Nagasaki, Japan had a yield of 21,000 tons of TNT. Both detonations were intended to end World War II as quickly as possible. Data on United States tests were obtained from, and verified by, the U.S. Department of Energy's three weapons laboratories -- Los Alamos National Laboratory, Los Alamos, New Mexico; Lawrence Livermore National Laboratory, Livermore, California; and Sandia National Laboratories, Albuquerque, New Mexico; and the Defense Threat Reduction Agency. Additionally, data were obtained from public announcements issued by the U.S. Atomic Energy Commission and its successors, the U.S. Energy Research and Development Administration, and the U.S. Department of Energy, respectively.

The Scottish Highlands are well known for their mystical charms and tales of fantasy, yet very few have encountered the power of a Highland Stag, the magic of a Campbell crystal or the enchantment of a sprig of heather. Indeed, even those who dwell within the shadows of these formidable mountains are often unaware of their charms. In the early hours of February 13th 1692 the sulfurous smell of a fired gun hung in the air of these mountains. Men, women and children screamed in terror, withering against pain as they fell, bludgeoned to death by men of the army. The shameful scar of a dreadful and tragic event was etched upon the landscape of a beautiful and otherwise honorable place forever. Awoken by the sickly, metallic copper stink of fresh blood and death, Corran MacDonald is forced to flee into blizzard swept mountains. With her family massacred and her village destroyed, Corran trusts the man when he offers to help her escape. But things aren't quite what they seem and very soon their bid for freedom is thwarted by Simon's old enemy and fellow Red Coat, Angus. A perilous journey of mystery, magic and intrigue takes the couple through time to modern day York where a twist of fate leads them to a conflict that will shape the final destiny of all Highlanders. 'When Fate Dictates' is a full length novel of approximately 90 000 words and is book one in the 'Highland Secret Series'.

Guess what -- Gary Paulsen was being kind to Brian. In Guts, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in Hatchet; plane crashes he has seen and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal. There's a handy chapter on "Eating Eyeballs and Guts or Starving: The Fine Art of Wilderness Nutrition." Recipes included. Readers may wonder how Gary Paulsen survived to write all of his books -- well, it took guts.

The Devil and Tom Walker by Washington Irving Classic Short Horror Stories - The Devil By his interest in popular legends the first of the great American writers shows his sympathy with the Romantic movement, which prevailed in his time in all the countries of Europe. His devil, however, has not been imported from the lands across the Atlantic, but is a part of the superstitions of the New World. The author himself did not believe in "Old Scratch." The real devils for him were the slave-traders and the witch-hunters of Salem fame. It is interesting now to read a contemporary critic of Washington Irving's devil-story: "If Mr. Irving believes in the existence of Tom Walker's master, we can scarcely conceive how he can so earnestly jest about him; at all events, we would counsel him to beware lest his own spells should prove fatal to him" (Eclectic Review, 1825). Few people in those days had the courage to take Old Nick good-naturedly. "Even the clever Madame de Stael," said Goethe, "was greatly scandalized that I kept the devil in such good-humour." The devil appears in many colours, principally, however, in black and red. It is a common belief in Scotland that the devil is a black man, as may also be seen in Robert Louis Stevenson's story "Thrawn Janet." There is no warrant in the biblical tradition for a black devil. Satan, however, appeared as an Ethiopian as far back as the days of the Church Fathers. The black colour presumably is intended to suggest his place of abode, whereas red denotes the scorching fires of hell. The devil was considered as a sort of eternal Salamander. In the New Testament he is described as a fiery fiend. Red was considered by Oriental nations as a diabolical colour. In Egypt red hair and red animals of all kinds were considered infernal. The Apis was also red-coloured. Satan's red beard recalls the Scandinavian god Donar or Thor, who is of Phoenician origin. Judas was always represented in mediaeval mystery-plays with a red beard; and down to the present day red hair is the mark of a suspicious character. The devil also appears as yellow, and even blue, but never as white or green. The yellow devil is but a shade less bright than his fiery brother. The blue devil is a sulphur-constituted individual. He is the demon of melancholy, and fills us with "the blues." As the spirit of darkness and death, the devil cannot assume the colours of white or green, which are the symbols of light and life. The devil's dragon-tail is, according to Sir Walter Scott, of biblical tradition, coming from a literal interpretation of a figurative expression. A few interesting remarks on the expression "The Devil and Tom Walker" current in certain parts of this country as a caution to usurers will be found in Dr. Blondheim's article "The Devil and Doctor Foster" in Modern Language Notes for 1918.

The 1960s San Francisco spiritual revolution - a view from inside. Memoir about a spiritual teacher and a student in 1960s San Francisco, a colorful cast - including Rabbi Shlomo Carlebach, Timothy Leary, Richard Alpert, Allen Ginsburg, Murshid Samuel Lewis ("Sufi Sam"), Swami Satchidananda, Ajari Warwick, Rabbi Zalman Shalomi Schachter, and many more - and lives that were changed forever. Aryae Coopersmith, a 22-year old college student in 1960s San Francisco, meets the charismatic rabbi and folk singer Rabbi Shlomo Carlebach and decides to start a community for him. He rents a house and moves in with his best friends. Before long they find themselves - and their house - at the center of the San Francisco spiritual revolution as thousands of young people - Jews, Christians, Buddhists, Sufis, and followers of countless gurus - flood in through their doors. Giving concerts to packed halls all over the world, Shlomo is recognized as Judaism's most influential musician, and one of its greatest spiritual leaders, of the late 20th century. Their house - the House of Love and Prayer - becomes an historic part of the legend of 1960s San Francisco. Aryae and his fellow students who are running other spiritual communities bring their teachers and gurus together to create a big San Francisco event - the Meeting of the Ways - to celebrate the oneness of the world's spiritual traditions and all the world's people. Aryae's best friends Efraim and Leah leave San Francisco and head to Jerusalem, where they become ultra-Orthodox Hasidim. Many others from the "House" follow. Aryae stays behind and settles into a secular life as a Silicon Valley business owner. After Shlomo dies, Aryae feels compelled to tell the story. To try to understand the lives of his old friends and pull together the scattered fragments of his own, he travels to Jerusalem. This profoundly moving memoir tells a story of grace, loss, redemption, and ultimately of acceptance. It invites us to reflect on how the 1960s spiritual revolution - with its vision of the oneness of us all - has impacted each of our lives.
